RHYUUNN

WON-330 AUTOMATIC SLITTER REWINDER

The WON-330 narrow-web automatic slitter rewinder is fully servo-driven and features taper tension control, top brand web guiding, turret rewind, meter and number counting, static eliminator etc. The ultimate configuration for high productivity and guality.

RHYGUAN

* May vary depending on selected options&configurations

UNWINDER & WEB GUIDING Servo driven unwind for clock wise and anti-clock wise unwinding. Automatic tension control, end-of-roll detection, webguide, integrated splice table, 76mm unwind mandrel. Factory upgrade to unwind rolls with dia = 1000mm and a reel lift possible.

COUNTER

High-quality German-made counting sensor - extra accessories needed for clear-on-clear material.

SEMI-AUTO TURRET semi-automatic 2-spindle turret which will turn automatically, and lower a pressure arm upon reaching the counter set. Simple, effective and highly productive. Suitable for clock-wise and anti-clockwise rewinding.

AUTOMATIC SLITTING Automatically positioned slitting knifes that are easy to control form the user-interface, including edge-trimming. Maximum of 10 knifes allows for a wide range of slitting possibilities. Optionally add manual razor blade also. JDF/JMF Use Rhyguan's digital platform to receive JDF job data from your MIS/ERP system to automate settings and automatically pass-on JMF management information

SINGLE LAYER FILMS Suitable to rewind thin films with optional Core-Lock differential rewind shafts. Slip threshold can be controlled from the touchscreen user panel. Lay-on rollers avoid air-bubbles during rewinding

WEB ADVANCE The optional web advance comes with additional clamps. And is available for both the upper and lower rewind. The web advance can also function as a lay-on roller when rewinding filmic materials
